Passion for life

# Renault DUSTER

## Make your everyday life **the greatest adventure**

---

Modern life can be something of an adventure. The New Renault Duster is capable of meeting all the challenges: tackling the city with its robust design or heading off the beaten track with its all-terrain capabilities. Thanks to its reinforced underbody, its high ground clearance and light weight, it demonstrates superb agility and enhanced off-road performance when handling uneven surfaces.

## Stylish **explorer**

---

The New Duster features a new front-end with grey injected surround protection, a lower body-frame and new fog light embellishers. The double-optic front headlamps including daytime running lights enhance its unique character. The new 16" black diamond alloy wheels reinforce its assertive look. At the back, it displays a new rear light block, a rear chrome strip, and a new chrome 4WD badge on 4X4 versions.

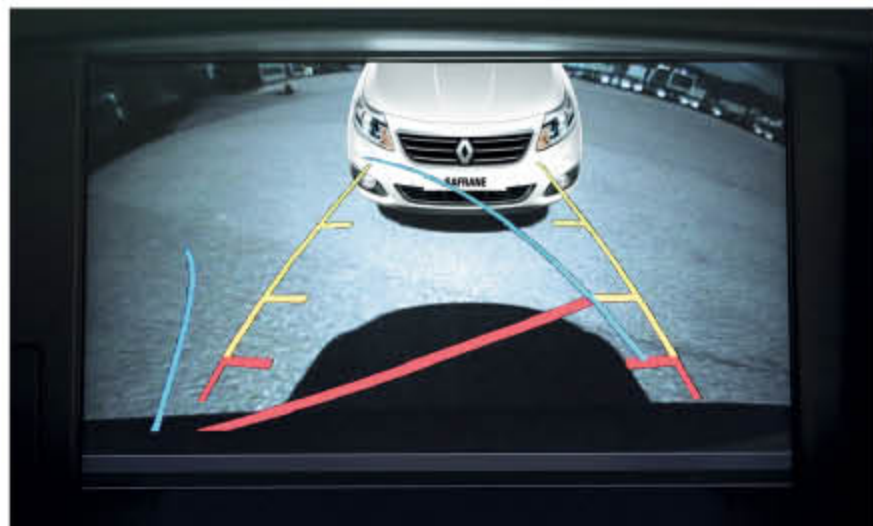

## Modern & **ergonomic**

---

Inside, your New Duster comes along with a brand new dashboard, redesigned seats with beige upholstery and many other features, such as a new gear knob with soft-touch feeling. It has been upgraded to deliver more comfort and reflect its exterior styling.

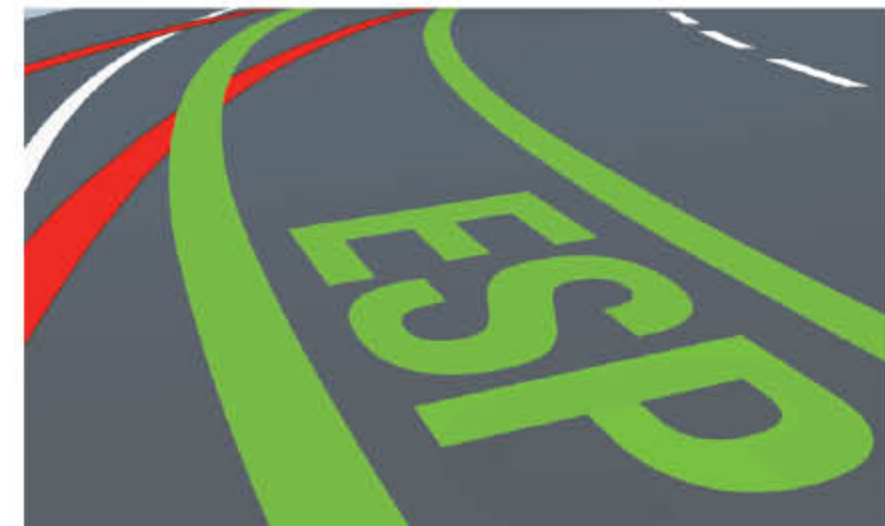

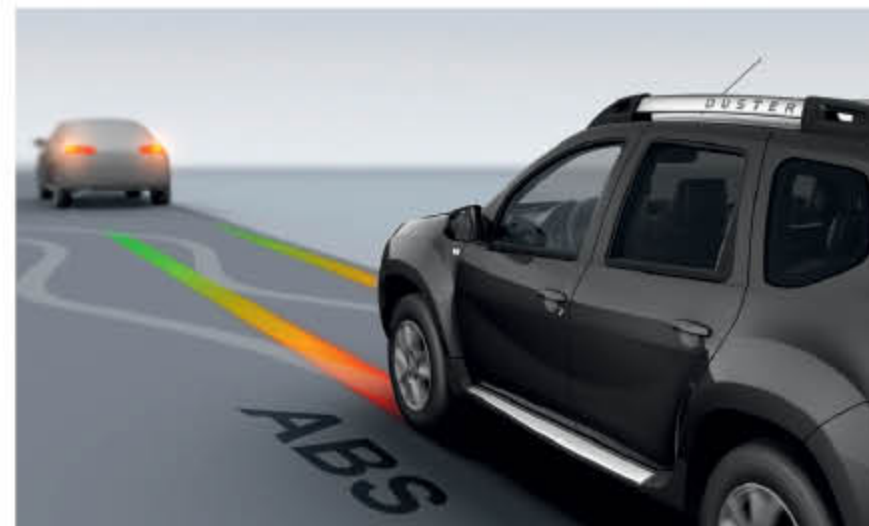

map n/a for Iraq

## Topnotch **technology**

---

The New Duster provides advanced technology. The rearview camera enables you to detect and avoid potential obstacles. Also, with the cruise control / speed limiter, mastering and modulating the speed of your car has never been so easy. The radio 7" touchscreen gives easy access to highly practical features such as audio streaming and hands-free Bluetooth®.

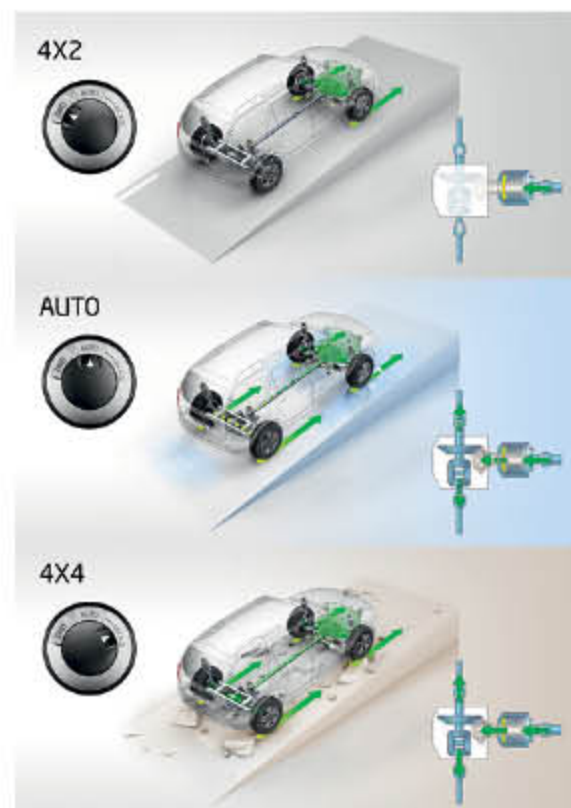

## Optimized control & **safety**

---

With a high seating position, the New Duster gives an excellent visibility to the driver. In addition, it comes with many safety features as standard: ESP (Electronic Stability Program), ABS (Antilock Braking System), Tyre Pressure Monitoring, ISOFIX for child seat, front driver & passenger airbags.

# Explore the world in 4x4

The New Duster is a travel companion equally equipped for day-to-day life as it is for adventure. Its off-road capabilities make it one of the most enjoyable vehicles in its category. Thanks to its intuitive 4WD technology, its light weight and high ground clearance, it can adapt to every situation in complete safety.

## **4X2:**

- Operation: when choosing the 2WD mode, only the front wheels power the vehicle.
- Conditions for use: road surfaces with good grip and motorways.
- Advantage: improved fuel economy.

## **AUTO:**

- Operation: when the AUTO mode is selected, the system automatically adjusts the torque distribution and adapt the transmission of power between front & rear wheels.
- Conditions for use: all types of roads in all grip conditions and on slippery road surfaces.
- Advantage: optimal traction and maximum safety.

## **4X4 / LOCK**

- Operation: with the LOCK mode [4WD], a 50/50 split between the front & rear wheels is maintained.
- Conditions for use: low grip conditions (mud, dirt, sand) at low speed.
- Advantage: off-road capabilities and crossing in all conditions.
